EQUIPAMIENTO PARA CLÍNICA

BUSTER Vet Examination Bag

An all-in-one product to meet the combined needs of the patients, the veterinary staff and the pet owners. The KRUUSE vet examination bag is a strong nylon bag for smaller patients in veterinary clinics (cats, small dogs and rabbits). A professional tool, designed for intensive use and adapted to suit a wide range of daily tasks:

- Gentle restraint
- Examination
- Vaccination
- Administration of drugs

The examination bag is opened on top (along the back of the patient) using three large Velcro bands (open and close in the respective direction). Double zip gives access to the tail. Two pairs of zips (front and back of the bag) to give access to the paws and limbs. Neck collar with Velcro for easy and quick opening and closing. Made of tough, claw-proof nylon selected for its mix of rigidity and flexibility.

Nylon material is X-ray transparent. Machine washable at 30°C.

BUSTER-VET Examination bag, 2-4 kg, navy

BUSTER-VET Examination bag, 0-2 kg, red

BUSTER-VET Examination bag, 4-6 kg, green

BUSTER-VET Examination bag, 6-8 kg, light blue
